DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION

Change the title to --A METHOD OF MANUFACTURING A THIN FILM MAGNETIC HEAD--.

After the title on page 1 of the specification insert --This is a division of application Serial No. 09/328,415 filed 06/09/1999, now US PAT. 6,333,841.--.

IN THE CLAIM

Re. Claims 27-31: Before the phrase "method" as recited in line 1, change "A" to --The--.

Re. Claim 30: Before the phrase "mask" as recited in line 2, change "a" to --the--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as a process of selectively etching part of the top surface of the pole tip so as to become lower than edge surface of the

first insulating layer which is formed on a side wall of the pole tip and to form a tapered portion in the edge surface of the first insulating layer and forming a second magnetic layer over the pole tip and the second insulating layer connected to the top surface of the pole tip through the tapered portion of the first insulating layer. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 26-31 are allowed.
